Release Information

QSAN is pleased to announce the release of QSAN XN3000/5000/7000/8000 firmware V3.2.3, the latest firmware for the following QSAN NAS products:

- Systems: XN3000/5000/7000/8000

New Features and Enhancements

- NFS mount permission setting follows client's default setting(22700)
- Add share link copy button for easy link copy and paste(22800)
- User can remove multiple failed tasks in background task by a one-click button(22703)
- When there are WORM folder/file protected in share folder, reject the delete request and pop up a message to inform user(22523)
- In File Manager, only admin has the permission to empty share folder recycle bin(21954)
- Support WD Data 60/102 JBOD

Issue Fixes

- Fixed issues that Windows previous version folder is not accessible sometimes(22643, 22663)
- Fixed an issue that sometimes excel file is not opened as read-only mode when the same file has been open from another client PC(22768)
- Fixed an issue that sometimes admin cannot set up AD domain user and group permission at share folder page from web Ui(22678)
- Fixed an issue that XMirror fails to sync file when 'Maximum number of version' is set to 0(22771)
- Fixed an issue that replica task still fails even after the max snapshot limit is set to a larger number(22737)
- Fixed an issue that an automatically deleted file goes to recycle bin even if the retention policy is 'delete permanently'(22666)
- Fixed an issue that Rsync transmission progress may show 0% after transmission starts(22695)
- Fixed an issue that LUN masking may fail sometimes for virtual volume(22859)

- Fixed an issue that transfer log for CIFS may show incorrect read record sometimes(22814)
- Fixed issues that permission on USB share folder is abnormal sometimes(22793, 22830)
- Fixed issues that sometimes admin may fail to log in to FTP after joined AD/LDAP domain(22732, 22895)
- Fixed an issue that in file manager, user home is not showed when username contains only numbers(22561)
- Fixed an issue that after user home re-create, admin may have no permission to access user home(22791)
- Fixed an issue that user may not have read permission after Read-only permission is granted to corresponding group(22775)
- Fixed an issue that sometimes when users upload files from file manager, the task may not have record in background task window(22731)
- Fixed an issue that sometimes web UI log in fail when there are too many connection(22471)
- Fixed an issue that AD domain user home may not accessible(22932)
- Fixed an issue that users can still upload file to file manager after the user quota reach the limit(22801)
- Fixed an IE compatibility issue(22730)
